

Accelerating business and digitizing process with signNow: Charles Perry Partners, Inc.

Charles Perry Partners, Inc. (CPPI) is a professional general contracting, design-build, and construction management firm with offices in southern US states. Established in 1968, the firm is a leader in sustainability and is dedicated to the communities in which it serves. CPPI's services cover a wide range, including project planning and modeling, budget estimating, cost management, project scheduling, and construction.

Key challenges before using signNow:

- ✗ Too much time and hassle spent getting manual signatures on documents
- ✗ Unsigned or incomplete documents slowed progress
- ✗ Hours of employee time spent on repetitive tasks like printing and scanning

Results achieved using signNow:

Saved time by getting documents signed faster and accurately with e-signature

Reduced errors and missed signatures with signNow's signing guidance and automated reminders

Digitized document workflows which eliminated the need to print, scan, fax, and store paper

Felt confident their data was secure with industry-leading security and compliance

We are pleased to have signNow integrated with Autodesk BIM 360 Cost. signNow has developed a best-in-class integration for Autodesk. signNow has developed a best-in-class integration for the Autodesk integration that allows our project teams to get documents signed faster and without the headaches associated with manual signature methods. The additional routing functionality has ensured that our subcontractors are reminded of all outstanding unsigned documents, and that has removed a lot of follow-up requests for signatures.
